Tiago Staurengi Murer

Software Developer

Software developer and former lawyer based in Sao Paulo, Brazil. Italian citizen, therefore eligible to live and work in Europe. Speaks english fluently.

Work Experience

Tata Consultancy Services, Software Developer

September 2021 – Present

- Development of a PCI enterprise Java applications in which I contributed to new implementations of the online payments API of the acquirers Cielo, Rede, SafraPay and Nedbank for a Springboot application.
- I implemented Resilience4J for all new services and wrote unit and integration tests with JUnit for all new code I wrote.
- Scrum methodology, Git and Jenkins CI.
- I worked with international teams made up of Indian, German and Serbian colleagues.

Minesoft, Freelance

January 2021 - September 2021

- I was responsible for developing two Angular applications
- I wrote part of the Daki platform's desktop application in Angular.
- I contributed to a pre-existing Angular application for the Daki platform administrators.

Infinity Systems, Intern

March 2020 – November 2020

- I have worked with the implementation of sales and service CRM systems, having implemented Oracle Sales Cloud solutions, customizing the behavior of the implementations through Groovy scripts (Java superset).

Education

Software Development Technologist, Instituto Federal de São Paulo (BTech)

February 2019 – December 2021
